

OV15 STAINLESS STEEL PORTABLE ROD OVEN 115 V

These energy efficient horizontal rod ovens are housed in durable stainless steel. The high R value ceramic insulation holds heat longer, extending field use. Placement of the heating element below the rods creates even heat distribution, increasing energy efficiency. Gasket sealed lid ensures an air tight seal to keep moisture out and heat in. Hinged cover allows for single handed retrieval of welding rods without glove removal. Replacement of heating element is quick and easy by removing six accessible screws.

Rod ovens are available in 15 lb. (6.8 kg.) and 50 lb. (22.7 kg.) capacities.

Voltage (AC): 115 V

Electrode Capacity: 15 lbs. (6.8 kg), 18" (45.7 cm) Max Rod Length

Temperature Range: 100 - 300 °F, 38 - 150 °C

Thermostat: Adjustable

Illuminated Power Indicator Light: Yes

Exterior Cabinet: Stainless Steel

Interior Construction: Stainless Steel

Insulation: 1" (2.54 cm) Thermal Ceramic

Interior Dimensions: (L x W x H): 19 x 5 1/2 x 3 in

Exterior Dimensions: (L x W x H): 23 x 7 3/4 x 7 3/4 in

Shipping Weight: 20 lbs, 9 kg
